Expanding Their World

Three-dimensional photography has been around for 178 years. The art of taking a standard photograph (2-D image) and changing it to create the illusion of life-like depth has gone from a form of entertainment in the 19th century to helping NASA create realistic views of Mars today.

Thanks to a grant by the Nelson B. Delavan Foundation, children aged 8-16 will have the opportunity for their world to be expanded by learning more about this exciting art form! A 1 ½ hour course called *3D 4 Me* will be taught at the Seneca Falls Library beginning at 10:00 am on February 11th by local resident, Paul Porter.

Students attending *3D 4 Me* will learn basic concepts of 3D photography, its history, how it is used in the present and how it will be used in the future.

Children ages 8-16
MUST PRE-REGISTER

Each participant will take a standard photograph during the class which will be transformed into a 3-D image through a computer application. Students will leave with a printed 3-D photographic image, a stereo viewer and the basic skills to create more 3-D images at home.

Software companies are actively developing uses for 3-D imagery to improve their products and to give customers cutting-edge technology. 3-D, according to some futurists, is the next big step in how we see our world. The Seneca Falls Library is pleased to offer the youth of our community their first stepping stones in developing skills in digital imaging.

To learn more about this exciting opportunity or to register for the class, please contact the Seneca Falls Library at (315) 568-8265.

Memorial and Honor Books

How do you celebrate a person's life? One way is to memorialize their name in a book! Memorial and Honor donations to the Seneca Falls Library are a wonderful way to remember a loved one or acknowledge a person's accomplishments. Donors choose the book topic. A name inscription plate will be attached to the inside cover of a new book. Consider donating in honor of the recent college graduate, a book lover, or in remembrance of a loved one. Your donation will enrich the library's collection and the book will be available to borrow for years to come!

Vendors, Bakers and Mini-Tree Makers!

A variety of holiday cookies and gifts were available for purchase at this year's Cookie Walk and Holiday Bazaar fundraiser, held on Friday, December 2nd. Revelers of all ages filled containers with cookies donated by over 20 local bakers. Regional vendors and artisans kicked off the shopping season by displaying blankets, candles, home décor and other merchandise for sale. A miniature tree contest, a raffle, and refreshments rounded out the event.

Your contributions and support are greatly appreciated!
