Annual report for year ending June 30, 1900, of

to the Regents of the  
**University of the State of New York**

Laws of 1892, ch. 378, § 41

§ 41 Every library or museum which receives state aid or enjoys any exemption from taxation or other privilege not usually accorded to business corporations shall make the report required by § 25 of this act, and such report shall relieve the institution from making any report now required by statute or charter to be made to the legislature, or to any department, court or other authority of the state. These reports shall be summarized and transmitted to the legislature by the regents with the annual reports of the state library and state museum.

Besides the libraries required by law to report, every library in the state having 300 or more volumes is earnestly requested to fill the same blank.

**Regents ordinance as to annual report**

All annual reports shall be transmitted to the University on or before August 1 each year; the University year, for annual reports of institutions, shall close on June 30, unless permission is given to report for a year ending at some other date, in which case the report shall specify the exact dates covered.

**Read these instructions carefully before filling this blank**

- 1 Use *perfectly legible* figures, not words, for all dates, amounts, numbers, etc.
- 2 When the report makes two items of something which your records combine, e. g. books, serials, bindings and salaries, *estimate as nearly as possible* the division between the two, for if you merely bracket items and give total, it distorts both columns in the summary for the state.
- 3 If it is impossible to give an accurate answer to any of the items asked, **please do not leave a blank but insert the best estimate you can make.** Without such estimates we can make no footings for the state. When questions do not apply or can not be answered definitely, **do not leave a blank**, but make clear by the following marks that answers are intentionally, not accidentally, omitted:
  - drawn through heading means "does not apply to this institution".
  - O in place of answer means "none this year". ? in place of answer means "fact unknown".
  - ? preceding an answer means "probably" or "approximately"; e. g. ?324 means "to the best of our knowledge and belief about 324".
- 4 Change any term used so that the report shall read exactly according to facts; e. g. write "chairman" instead of "president", "director" instead of "librarian", etc.
- 5 If it is not practicable to give the facts for June 30, give them for your own date, *clearly indicating the change* wherever June 30 is printed in this blank.
- 6 "Trustees" as used in this report means the governing body, by whatever name known.
- 7 **Class of books** is "general" unless the library is largely devoted to a particular subject; if devoted to a class not printed in our list add it in manuscript.
- 8 **Ownership and control.** a) *Private* means belonging to an individual, family or firm and open to the public, if at all, only by courtesy.  
b) *Membership* means controlled by an association requiring an election for admission or payment of a fee for the right to vote for trustees; e. g. society, association, club, atheneum and other proprietary libraries. A membership library may be open to the public and supported in part by taxation, but it is not controlled by the voters or their representatives.

c) *Business* means open to any one who pays the fee, e. g. libraries run as a business, like the circulating maintained in many book stores, and many mercantile libraries, though some of the latter are proprietary libraries.

d) *Endowed* means owned and controlled by the trustees of an endowment, usually a self-perpetuating body. An endowed library may be freely open to the public, but is not owned or controlled by it. For libraries belonging to endowed institutions, colleges, schools or churches, see rules g and h.

e) *Public* means owned and controlled by the public through trustees elected by the voters or appointed by their representatives, but not government, school or institutional libraries.

f) *Government* means owned by the U. S., state or county; not including those classed as schools or institutional libraries.

g) *Institutional* includes all libraries belonging to institutions other than colleges, schools and churches; e. g. hospitals, asylums, prisons, Y. M. C. A., etc.

h) *College or school* libraries are those maintained for the use of students and teachers and owned and controlled by the institutions.

9 **Terms of use.** "Free to public for lending" means that books may be taken from the rooms of the library for home use. To be counted as a "reference" library, it must be open during reasonable hours, and tables and chairs must be provided for using the books at the library.

**Affidavit of presiding officer**

By the laws of 1892, ch. 378, § 25, the annual report of every institution must be "verified by oath of its presiding officer", which term may mean either the president of the institution or the chairman of its trustees. It is very desirable that the report be read and approved by the trustees, but if this can not be done in time to send the report to the regents before August 1, it should be sent as soon as authenticated by the presiding officer, and read to the trustees afterward.
