

My name is Rose, and I am 16 years old. I am thrilled to write this letter about the programs at the Seneca Falls Library!

My two younger sisters and I have attended many of the Seneca Falls Library's programs and have thoroughly enjoyed every one of them. Two that we especially loved were the Lunar New Year celebration and the family bingo night. The entertaining books that were read and the creative crafts we made and took home during the Lunar New Year program made the event so memorable. We learned so much about different cultures and the unique ways people celebrate, which was eye-opening and fun. The delicious food was definitely a highlight for us!

Fortunately, my whole family was able to attend the family bingo night, and we shared many great laughs together. My younger sisters were so happy with their new (gently used) books and the tasty snacks that were provided. The atmosphere was upbeat and joyful, with smiles all around and cheering every time someone got a bingo—it was a wonderful experience.

My little sisters and I always look forward to going to these programs and always have so many good things to tell about them!

Thank you for providing these amazing opportunities to enjoy these programs :)

Sincerely,
